

# TOKYO COLLEGE

共に考える。未来のかたち Shaping a Shared Future Together

Lecture &  
Dialogue

## Can AI and Humans Understand Each Other?

Zoom  
Webinar

Speaker

**HENSCH Takao**

Director, International Research Center for  
Neurointelligence, The University of Tokyo

Speaker

**KUNIYOSHI Yasuo**

Director, Next Generation Artificial Intelligence  
Research Center, The University of Tokyo

The use of Artificial Intelligence (AI) may improve our understanding of the human brain in the future. But can humans understand AI? Will AI ever surpass our understanding of humans? This dialogue will bring together experts in respective fields of AI and neuroscience to exchange their thoughts, followed by a discussion and Q&A.

Moderator

**EMA Arisa**

Project Assistant Professor,  
Institute for Future Initiatives,  
The University of Tokyo

2020.11.30 [Mon.] Start 10:00 Finish 11:30 (JST)
