Talk to the Authors: The Puzzle of Vaccine Hesitancy

Webinar

Zoom
Lecture

Speaker

Andrew GORDON

Professor of History, Harvard University/
Tokyo College Professor

Speaker

Michael R. REICH

Taro Takemi Research Professor of International
Health Policy, Harvard University

Recent studies and media accounts reporting Japan to be unusually vaccine hesitant require critical scrutiny. Our historical review shows that many vaccines have been accepted and that today recommended routine vaccines are universally accepted. That said, social mobilization of vaccine-injured victims has generated public and official hesitancy toward new vaccines and represents a significant challenge for Japan's public policy.
