Tokyo College aims to generate new knowledge to contribute to the creation of an inclusive society and spark deeper public engagement with the University.

A Nobel Laureate against Nuclear Power
Hannes Alfvén and the Public Image of a 20th-Century Scientist

In 1970 the physicist Hannes Alfvén was awarded the Nobel Prize. This recognition by the international scientific community strengthened his national status and critique of the Swedish nuclear policy. His resignation in 1980 from the Royal Swedish Academy of Engineering Sciences illustrates conflicting views on nuclear politics which still haunts us today.

Speaker
Svante LINDQVIST
Tokyo College Ushioda Fellow

Svante Lindqvist is a former President of the Royal Swedish Academy of Sciences. He was the founder and first Director of the Nobel Museum in Stockholm. He is a member of the Japan Academy and the American Philosophical Society. He has been a visiting professor at the University of Tokyo, the University of Pennsylvania and MIT.
