Lecture

Zoom  
Webinar

## Family-run Medical Institutions in Japan

Around 80% of all hospitals and around 90% of clinics in Japan are private. Of these private institutions in total, up to 75% are family-run. This lecture sets out to fill a puzzling gap in the literature by describing the development and significance of *dōzoku keiei iryō hōjin* in the context of how the health system as a whole operates in Japan.

2024. **5.30** [Thu.]  
14:00-15:30 JST

Speaker

**Roger  
GOODMAN**
