Central Banks in the 21st Century

Central banks, and central bankers, stand at a crossroads. They face five major forks in the 21st century requiring careful reflection: (1) the re-emergence of inflation and uncertainties; (2) climate change; (3) inequality; (4) digital financial innovation; and (5) artificial intelligence. Modern central banks have always strengthened their analytical thinking when facing challenges in the past, balancing risks properly and choosing the best path. Now, these new issues imply that central banks will have to carefully identify and analyze their challenging implications.

2024. **5.29** [Wed.]
15:00-16:30 JST

Speaker

**Luiz Awazu
PEREIRA DA
SILVA**

Visiting Professor,
Tokyo College,
The University of Tokyo

Commentator

AOKI Kosuke

Professor,
Graduate School of Economics,
The University of Tokyo

Moderator

Takeo HOSHI

Director,
Tokyo College,
